Jess Cummings

Product Designer · Detroit, MI

jessicacummings2021@gmail.com · jesscummingsportfolio.com · linkedin.com/in/jess-l-cummings

Product designer for complex B2B systems: information architecture, design systems and the screens on top. Works between business and engineering teams, and writes front-end code (HTML, CSS, JavaScript).

WORK EXPERIENCE

Product Designer (Contract) · TripSlip, Detroit, MI — Jul 2026 – Present
- Own IA and end-to-end design for a K–12 field-trip platform launching with 50+ school districts in 2027
- Designed 140+ Figma screens across 4 user groups: teachers, parents, school admins and venues
- Built the UI kit, design system and developer spec engineers build from

Product Designer (Freelance) · ConStrat AI, Nudena, Chip Motors and others, Detroit, MI — Jun 2026 – Present
- Run customer interviews for ConStrat AI to find where users stall, and design the fixes
- Audited a B2B AI startup's 20-component design system in Storybook; wrote the handoff process it adopted
- Built MCP integrations connecting Claude to Figma, Notion and Webflow to speed up handoff

UX & Product Designer · Motmot, Detroit, MI — Oct 2025 – May 2026
- Grew monthly website users from 280 to 1,600+ in four months through a Webflow redesign and SEO
- Redesigned the engineering dashboard for accessibility and live data; started a client GIS dashboard
- Created the brand system, company-wide templates, pitch deck and service blueprint

Lead UX Research Assistant · UMTRI, University of Michigan — May 2025 – Sep 2025
- Audited 50+ infotainment UI elements in 10 vehicles against SAE and ISO standards for a federal agency
- Tested 3 inclusive in-vehicle prototypes with participants with disabilities; mentored 2 interns

UX Researcher · Electric Vehicle Center, University of Michigan — Feb 2025 – Aug 2025
- Restructured 70+ datasets into 14 filters for Michigan's EV web portal, used by 5,000+ people

Front-End Developer & Accessibility Specialist · CRLT, University of Michigan — Sep 2023 – May 2025
- Resolved 170+ WCAG accessibility errors across Canvas course modules
- Standardized 50+ SQL files, cutting reporting errors 30% and enabling Tableau dashboards

Data Visualization Intern · Center for Sustainable Systems, University of Michigan — May 2024 – Aug 2024
- Rebuilt 150+ static graphs as accessible D3.js visualizations for a website with 1M+ users

PROJECT EXPERIENCE

Project Manager · Bridgestone capstone, UMSI · First Place, Best UX Prototype 2025 — Sep 2024 – Apr 2025
- Led a team of 5 through 8 executive interviews and usability tests to merge 5 fleet tools into one

Hackathon Winner · The 45-Minute Mile, Think Technologies hackathon — Aug 2026

LEADERSHIP EXPERIENCE

Vice President & Director of Workshops · Tech for Social Good, University of Michigan — Oct 2021 – May 2025
- Grew membership from 20 to 150+ across 7 teams that built 7 civic tech tools; led their project managers

Student Speaker & Liaison · Public Interest Tech University Network (PIT-UN) — Jan 2024 – May 2025

EDUCATION

Bachelor of Science in Information Science (UX Design) · University of Michigan · Full-ride scholarship — May 2025
